

What Now?™

Caring for someone who has Alzheimer's disease or a related disorder is perhaps one of the biggest commitments a person can face. "What Now?" is designed for **non-professional family caregivers** to provide information and allow for *guided group discussion* and sharing in a one hour period. The series will be scheduled throughout the year so caregivers can elect to select the training that is most needed at the time and pick up the other classes later in the year, or take the complete eight (8) week course.
